Sprint 2 Report

Medicine Tracker

Pill Slugs

11/2/2021

- Actions to stop doing:
    - We don't have anything to stop, we need to finish our user stories
- Actions to start doing:
    - Work together on both frontend and backend so everyone understands every part of the project
    - Get the calendar connected to the backend
- Actions to keep doing:
    - Attending team meetings
    - Staying focused on specific user stories
- Work completed:
    - Full functionality of medicine and customer objects in backend
- Work not completed:
    - Google Login
    - Connection of frontend and backend
    - Calendar
- Work completion rate:
    - We didn't get to finish the calendar.
    - We work on the user stories every 3-4 hours a day
